

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Speech-Language Pathologist Jocelyn, helped and taught my son a lot of things that he needs to work on. He is improving slowly but he is a quick learner and Jocelyn is a great therapist. She always asks how he is doing with his homework. Every week she has a homework assignment for him to do until we meet up again. Jocelyn does her job really good.

Occupational Therapist Judy has helped my daughter to improve her fine motor skills as well as manage her emotional outbursts. Judy is a very knowledgeable and skilled professional and has many times assisted us with daily challenges of raising a special needs child. I don't know where we would be today without her cranial sacral therapy.

Preschool Vision Screener Teresa is always a pleasure to have working at El Centro. She is great with the staff, children, and parents when working and speaking with them. Teresa is excellent at what she does and has helped us identify children that need additional vision care. We truly appreciate her and hope she continues to work with your program.

Preschool Vision Screener Linda is a fountain of great resources and information. She is professional and organized. As for this program it's an incredible service to our community especially with so many parents out of work. We have had a few children referred and the results were outstanding. They were ready for kindergarten! Thank you!
