

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Preschool Vision Screener Linda, was very kind and comforting to the children. Linda made them feel at ease. She explained step by step what she was going to do. The children were screened with no problems. They loved the books and games Linda brought. She is a sweet and kind screener. Thank you so very much for helping our families.

I would like to thank the Elks Major Project for providing Physical Therapist Brian, as a service to our son. Azure has quite a ways to go before he can reach his goal of walking. I feel though with Brian helping our family we can actually make this goal a reality. Brian has many clever and innovative ways of getting Azure to do really helpful strength building exercises. The Elks therapists we work with Brian and Sheila, Occupational Therapist, are honestly my favorite out of the team of people we see. Thank you!

Well what can I say! Preschool Vision Screener Wyomi rolled with the punches. It appeared to be that I was a single team player. As it is with child care centers, things don't always go as smoothly as you've planned. Anyway I would like to credit the success of the morning to Wyomi's patience with the children and me. By the last child I think I was successful with putting on the patch. Thank you Wyomi once again for a job well done.

Thanks to Speech -Language Pathologist Hedley, for the great service for children like my son who are not able to qualify for other no cost programs. Although my son was in the program for a short period and only one time a week he progressed well. He also looks forward to all the sessions during the time being. Thank you for you kind service.

We are so happy to be included in the screening for the local preschools that Preschool Vision Screener Katie provides. It is a valuable addition to the services you provide to our families, and I know they appreciate the service as well. Katie is as adept at working with preschool age children and makes it fun and not scary at all. We really enjoy her.

A coin a day so they can walk, talk, see and play!
