

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Speech-Language Pathologist Tracy, was an amazing gift to our family! Elliot now talks up a storm! He was only able to say 5 words when Tracy came to us. Thank you Elks and Tracy for changing my son's life for the better.

We look forward to Preschool Vision Screener Katie's, annual visit. She is easy to work with, she is good with the children and she has identified children needing follow up. We appreciate the Elks program and we appreciate Katie.

My husband and I feel very blessed to have our daughter Guinevere to be part of the Elks Major Project program. I believe that this program has opened doors of learning for our daughter. She has expressed love for learning and communication. Speech-Language Pathologist Hedley has played an important role in her success. She has been loving and patient in her teaching. We enjoy having her in our home, Hedley is an outstanding teacher because she teaches from the heart. We will miss her, especially Guinevere. Mahalo for all the help this program has provided.
