

## NEWS FROM YOUR ELKS MAJOR PROJECT . . .

JanDee is a very personal and committed Occupational Therapist. She has worked with Liam since he was an infant and he would not be where he is today without her concern and individual therapy. She always offers a well rounded therapy when working with him. She is so much a part of our life.

Our son learned a lot and progressed thanks to therapy given by Speech-Language Pathologist Jocelyn. She is very professional and serious about her efforts and makes it known from the beginning. At first she came across as being impatient but later I came to understand that it was for the betterment of our son. We truly appreciate the services from the California-Hawaii Elks Major Project. We continue to use the skills we learned and our son continues to improve. Thank you so much!

Physical Therapist Denise is doing a great job. When she first started with my grandson he was very delayed, now he has improved so much. We are really pleased on how far he has come. Without therapy I don't think he would have come this far so fast.

We are fortunate to be able to offer this free vision screening. Preschool Vision Screener Teresa has consistently provided professional screening service and always follows up with kids whom she has referred for further vision screening. We look forward to next year's screening. On behalf of our parents, staff and children I would like to thank your Organization for making this service available to us.

Speech-Language Pathologist Hedley is very professional, yet warm and open to concerns and questions that we have about our child's needs, etc. Our daughter has taken quite well to Hedley and her approach to speech therapy and looks forward to her sessions, which makes it easier for us parents to work with her at home. Her speech has improved considerably! We are grateful for the opportunity that Hedley and the California-Hawaii Elks Major Project has afforded us and our daughter, we have seen a great improvement in her speech and a boost in confidence.

A coin a day so they can walk, talk, see and play!
