

## NEWS FROM YOUR ELKS MAJOR PROJECT . . .

I thought the program and Speech-Language Pathologist we worked with led herself in a professional manner. She was prompt at returning calls and e-mails and she even did extra research to answer questions I had about therapy and extra resources. She used very plain speech which we felt would help our son's skills if we talk to him the way we talk every day because he has good receptive skills. We are working on expressive skills. We appreciated the program.

Judy is a great Occupational Therapist. My son loves her. She is good at explaining things to us and she answers all my questions. I am grateful to the California-Hawaii Elks Major Project for making this therapy possible for my child, since it has been helping tremendously. God Bless You!

Preschool Vision Screener Gina was very caring and kind towards the children and staff. We have always looked forward to her coming to the center. Starting July 1, 2011 the government will be taking over the center and hopefully they will be smart enough to have Gina continue to do the vision screening.

Preschool Vision Screener Katie was an absolute delight. She showed up on time, was very personable and professional. Katie has a very special gift in working with preschool aged children and she was able to find success screening some of our still challenged students. Please offer Katie our thanks for her time and commitment to serve our little people here at Little Friends.

Genie was an excellent Speech-Language Pathologist. My son's speech has improved beyond my expectations and he enjoyed all of his therapy appointments. He bonded with Genie and he was sad to learn that he graduated and no longer needed to see Aunty Genie. I am so very thankful for the opportunity that the California-Hawaii Elks Major Project has given my son, me especially because we would not have been able to afford this type of therapy elsewhere. Thank you!

A coin a day so they can walk, talk, see and play!
