

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

I am very grateful to have Hedley as my daughter's Speech-Language Pathologist. My daughter Khloee has improved with the enunciation of various sounds and forming sentences. Khloee looks forward to her sessions with Hedley because she keeps Khloee engaged with various activities and games. Hedley also gives me suggestions and assignments to reinforce Khloee's improvement. After each session, Hedley takes the time to discuss with me any concerns or questions I have about Khloee. We are very fortunate to receive the services provided by California-Hawaii Elks Major Project.

He has been making great strides in self correcting and being aware of his pronunciation until there was a gap in services due to our travel, illness and therapist travel. I am confident with consistent service his speech will continue to improve. He really enjoys his time with Speech-Language Pathologist Jocelyn and the activities they work on together, it is a blessing to have her providing services to my son.

Our vision health screening visit went great. Preschool Vision Screener Dina was very patient with our students which we appreciate since our students are all Spanish speaking. She took the time to work down at the children's level and it made it a great visit. Parents were very thankful and the staff appreciated her hard work and dedication. Thank you!
