Reopening Lodge Doors, particularly given the fact that we are still recovering from COVID-19, is not going to be as simple as "returning to business as usual." However, let's not look at this as a bad thing; because it's not. What this pandemic created was a forced pause -- a time for reflection -- personally, professionally -- and the opportunity to become more innovative, creative and efficient in the way that you sustain your Lodges and revitalize your member participation. This is an opportunity to increase membership, enhance Lodge leadership pools and increase charitable contribution amounts. Imagine what your future will look like for your revitalized volunteer programs and your Lodge organizations. Jeanie Talbot will offer several suggestions to assist as you Reopen your Lodge Doors!
