

## NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Mrs. Uetake, the Speech Language Pathologist, is absolutely great. I have no problems communicating with her. She is very attentive to my concerns and always gives suggestions to alternatives if any are needed. My child looks forward to her sessions with her. I am very pleased to have her as our Speech Language Pathologist. Keep up the good work.

Occupational Therapist Valerie was amazing to work with. She has been with us through struggling times and great times. She was always very supportive of Aiden and his needs. She knew when to push Aiden through difficult tasks and when to back off. He has overcome so much during our time with her. She truly is the best OT on the planet. We've been so thankful for this program and Valerie.

Jocelyn, Speech and Language Therapist was extremely patient while teaching and working with my son. His progress is evident and he continues to excel in school. She recognized his efforts and made it fun, and also worked with me and my husband in how to help him with practice.

I really appreciate the services you offer! The Vision Screener Wyomi was very professional and helped a great deal with questions I had regarding a few children in our program. We look forward to a positive and healthy working relationship with your program.

Jan Dee, our Occupational Therapist, made so much progress with Ashton. His fine motor skills have improved and he is now willing to try different foods which is amazing.
