

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

We were very happy with our Speech and Language Pathologist Hedley She was very kind, patient, creative, professional and very positive. My son looked forward to session time with Hedley. She was easy to talk with and she did a great job explaining things to me. It was wonderful how positive she was with my son as he was willing to practice his home work. It was very nice to see how much my son improved with his concentration and his words! Thank you very much for the wonderful Speech and Language Pathologist.

Laura was a very professional Pediatric Vision Screener and great with the children. We are happy to have her return to our preschool.

Without Occupational Therapist Valerie's help, we question how well Kai would have integrated into his first enrollment into preschool. Her services are invaluable and every parent with a child having learning challenges would benefit from Valerie's help.

* * * * *

Speech and Language Pathologist Jocelyn was professional and engaging with Aiden. She easily identified areas where he needed guidance and taught him strategies. We highly recommend your program and especially Jocelyn.

* * * * *

Occupational Therapist Michelle is very kind and talented. She works very well with Leo and tries to include his strengths and challenges into our sessions.
