

## NEWS FROM YOUR ELKS MAJOR PROJECT . . .

We cannot thank Jocelyn our Speech and Language Pathologist enough for all of her work with Zoe. Zoe's speech improved very rapidly after beginning therapy. Within the first session Zoe was making constant sounds that she had never before produced. I no longer have any concerns relating to Zoe's speech. She has met and exceeded all of our goals for her speech.

I think Occupational Therapist Valerie does an excellent job and offers me resources such as books, handouts, OT toys, etc. Proactively all these resources and the education she's provided have helped me understand my child, actually my children, almost all of it applies to his twin sister it turns out and made me a more confident parent. Thank you ever so much for providing this service.

Speech and Language Pathologist Hedley has shown my child compassion and attention since the first day we worked together. Each session is a little different with great creativity and involvement and fun for my son. She has given advice that has been welcome and helpful. She has the best rapport with my child of several therapists with have worked with

Our Pediatric Vision Screener Katy was a pleasure to work with at our school. She does an amazing job getting the children to do the vision screening with her. It is always a positive experience for our children. Thank you.
