

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Physical Therapist Megan is the best therapist my son has had for the past weeks. She is very hands on and works perfectly fine with Javier without stressing him or making him cry. She has built a beautiful relationship with him.

Vision Screener Katie is great. She works well with the kids and staff. We love having her in the classroom.

* * * * *

Even though Daniel received the service for about one month his improvement throughout the weeks was amazing. Speech and Language Pathologist Hedley is very friendly and patient with Daniel. I am blessed to have experience with the Elks and already recommend friends that needed assistance.

Occupational Therapist Chrystalyn is so informative and helped us realize the different things we need to address with Lucas. She goes over and beyond for Lucas. It's sometimes shocking the things she can get him to do. She is incredibly knowledgeable and has helped give us a better understanding of things from Lucas' perspective. She has been and continues to be an incredible blessing in ours and Lucas lives.

I want to express my gratitude. This program has helped me and my son and we look forward to our meetings with Cori. My son opened up to her right away. Speech and Language Pathologist Cori is really good at what she does. Thank you Elks Major Project.
