

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Physical Therapist Denise is wonderful. We greatly appreciate her role in Jana's early development. She has built a beautiful relationship with our daughter, making treatment a joy.

Pediatric Vision Screener Laura was extremely professional, polite and thorough in completing the children's vision screening. One of the little girls that she screened arrived at school yesterday wearing her new "Pink" prescription glasses. Thanks to the screening your organization provided, a child's vision deficiency was detected early and now she sees everything. Her parents didn't have a clue that her vision was poor. Thanks so much for the important work you do.

Occupational Therapist Mindy is fantastic. We have finally seen some progress with our little Ariel. She is kind, knowledgeable and professional and Ariel likes her. I don't know what we would do without her.

Speech and Language Pathologist Tracy is very kind to Dani, very patient and understanding. She is like part of our family. She is also generous and gives little gifts and rewards and responds to emails, phone calls and texts within a reasonable time. Thank you so much for your speech therapy program. It has helped my family greatly.
