

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Physical Therapist Denise is amazing! My daughter absolutely loved her, and they worked very well together. I learned so many ways to help my daughter reach goals and work her little muscles on a daily basis without a therapist present. She helped set us up for a successful future!

Our Occupational Therapist Valerie has been an incredible support to our daughter and family. We had felt overwhelmed as we navigated some of the challenges our daughter faces. Having Valerie in our lives has been amazing. She has taught us pragmatic and useful tools and has been with us as we have celebrated the progress our daughter has made. Our daughter trusts Valerie and feels great support from her. We feel so much more confident and informed now.

We really appreciated the opportunity to work with Speech and Language Pathologist Cori to meet Tasman's speech goals. Cori was very easy to work with and made the speech goals and techniques fun and attainable and clear for my thirteen year old. We especially appreciated Cori's collaborative approach offering Tasman assistance and expertise in reaching Tasman's goals rather than as a teacher assigning homework to a student. This approach was much more effective! Thanks Cori.

We absolutely love this program that is offered to our preschool. Pediatric Vision Screener Laura was great with the children and she made them feel very comfortable. We were sad the couple of years that we didn't get these services when the other screener had to leave and were happy when we got the call that we would be receiving this service for our preschool once again. Thank you so much for all that you do!

A coin a day so they can walk, talk, see and play!
