

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Our Occupational Therapist Judy has been a godsend! She has provided so much more for my family and my child than I could have ever hoped for. Her insight and knowledge has given me not just peace of mind but has eased my anxieties concerning my daughter. She is a very, very valued influence in my family. Having her come either to my home or me going to the lodge, both my child and I look forward to seeing her, quite enthusiastically in fact. She does a superior job with my daughter and I consider her a great asset to the wellness of my child. I would be lost without her.

Pediatric Vision Screener Juliana was very professional and was respectful in the manner she addressed the staff and students here. The materials were given on time and explained the results very clearly to us. We would definitely like to have her again next year. Good job Juliana!

I can't begin to explain how very happy we are with this service. Our Speech and Language Pathologist Hedley exceeded our expectations and goals we had for our son, Ashton. He improved tremendously within the short time of therapy. We are very sad that it had to end, but thankful for this short time. I would recommend Hedley to anyone wanting this service.

Ashton was so comfortable with her. She was very professional and loved what she did. I don't see her as a teacher, but more of a family member. She was everything we hoped for and more. Thank you for all you do, even though you think it might be a small gesture, it influenced our life for the better.

Mindy, Occupational Therapist, is a blessing. She has knowledge in her field and we love having her. Her bubbly personality makes therapy seem more like a happy visit to our lovely Eleya who is progressing because of her.
