

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Physical Therapist Lea is very knowledgeable and creatively approaches our unique challenges with fun therapy. I'm very impressed with her ability to evaluate and adjust her expectations and goals in the midst of new exercises. Lea and Judy work exceptionally well together and Camille is making encouraging progress with this therapy team! I know it's a transition, but we love this window of having them together.

I'd like to thank the California-Hawaii Elks for their service. I appreciate everything that Speech and Language Pathologist Hedley has done to help Wyatt develop his speaking skills. Wyatt has come such a long way from when he first started. You folks are providing such a valuable and much needed service for our children and community. We are so grateful for all you have done for our family!

Vision Screener Katie always does the best job. She knows how to work with the kids in a positive way (especially the difficult ones). I always appreciate seeing her and we are lucky to have her.

Thank you California-Hawaii Elks and Speech and Language Pathologist Jocelyn for providing help when my child needed it the most. You have given my child a better opportunity to succeed and a head start to lead a normal childhood. He can communicate better with his classmates and we understand him better and are doing our best to help him have success and lead a normal life at his school.

A coin a day so they can walk, talk, see and play!
