

## NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Occupational Therapist Judy is the only professional that Milo gets to see on a regular schedule. We can bring everyday concerns to her. Milo's condition NF1 is multifaceted and Judy can help us with many of the functions of day to day life stuff. This therapy has made a huge difference and it gives me tools where I would otherwise feel helpless in what I can do for my child. I'm so grateful for this amazing service that you are providing for my son. Thank you from the bottom of my heart

Pediatric Vision Screener Katie was fantastic. She even surprised me when she was able to screen our students who were Spanish speaking by communicating with them in Spanish! Katie also went above and beyond by later sending contact info about a potential hearing screening resource.

Speech and Language Pathologist Hedley has been great with our son Caleb. She has provided us with answers for our inquiries and concerns and seeing improvement. We also greatly appreciate the services that your organization provides to children and their families. We have been blessed.

We feel very lucky to work with Speech and Language Pathologist Jocelyn! She is a very caring and professional, responsive and thoughtful person. Daniel is progressing with Jocelyn's therapy program and we are very satisfied. We want to say thank you to all the staff of California-Hawaii Elks. What you do really helps us and a lot of families!
