

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Our daughter adores Occupational Therapist JanDee. She is very knowledgeable about Maddie's needs and has been the driving force in Maddie's progress. She also explains each exercise on why it's important and how to integrate it into our home life.

Speech and Language Pathologist Hedley has been amazing with our family. She doesn't just provide services to our child but she extends herself to explaining techniques and strategies to use at home with our child who has made great gains and we are very pleased and grateful.

We are so grateful for your services. Speech and Language Pathologist Tracy was a delight. Our son began talking before our first appointment with Tracy. However, it was encouraging to know that he was on the right track. Tracy's professionalism and caring interaction with our son was comforting. She confirmed his progress through the assessment and assured us that he was where he should be for his age. Thank you!

We were very happy with the services received from Occupational Therapist Chrystalyn. She has helped a lot with Russell's sensory issues and my son looks forward to seeing her every week.

Pediatric Vision Screener Wyomi is great! She is also friendly and professional with adults as well as the kids. Thank you very much to the Elks for providing this great service to the children. We are so appreciative!
