For 51 years, the Hoop Shoot has been developing gritty kids. The Elks Hoop Shoot is a Free Throw Program for Youth Ages 8-13.

Grit The Power of Passion and Perseverance

The grit movement started a few years ago when psychologist Angela Duckworth studied people in challenging situations, including National Spelling Bee participants, rookie teachers in tough neighborhoods, and West Point cadets. Her research suggested that grit was a more accurate predictor of success than social intelligence, good looks, physical health, or IQ. Duckworth explains the premise in this short [Ted Talk](#).

Grit- researchers and experts concluded that grit is so important for our children. Just listen to the parents and contestants in [these videos](#). They're talking about grit.
