

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Pediatric Vision Screener Juliana was very professional in her interactions with our children. She did not pressure them to answer quickly and in fact encouraged them to take their time. She patiently explained to each child that she had a game to play with them. We would welcome Juliana back anytime.

Occupational Therapist Chrystalyn is an excellent therapist. She is creative, caring, sensitive and professional! She has done an amazing job finding how to create activities that involve Ellie's interests but also works on her areas of weakness. Ellie loves having Miss Chrystalyn come.

Speech and Language Pathologist Hedley did an amazing job with Enzo. She was able to really connect with him and understand his needs. She was able to teach him and myself the techniques used to improve his speech in a way that made it very understandable. She is very compassionate and really takes the time to get to know and understand the child and the family. Enzo really enjoyed his time with her. Thank you so much for offering such an amazing program! It really improved our lives!
