

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

We absolutely love Physical Therapist Denise. Vivian has been moving around so much more since beginning physical therapy with her. She even falls asleep on her at the end of our sessions because her little body is getting such a great workout. I have seen so much improvement in mobility and am excited to see her keep moving and hitting milestones.

Pediatric Vision Screener Katie knows how to work with young children! Her directions and methodologies vary according to the needs of the individual child in order to get the most accurate results.

Occupational Therapist Valerie was simply amazing. She did her job with wisdom and joy and she helped not only Willem, but his twin sister and educated us as well. Our kids always looked forward to seeing Valerie and her last day was a sad one. Thank you so much for how you helped us!

Thank you so much for services. These were just life changing and vital to the growth and involvement of my daughter Tallulah. We are forever grateful to the Elks and to Occupational Therapist Judy for these services.

This is the second year that we have used your services! We are so happy that it is available. This year one of our children was wearing glasses 10 days later! Her mother has expressed great appreciation over and over. She said the pediatrician never picked up on her vision problem and she can't believe the difference. Thank you!
