

## NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Speech and Language Pathologist Tracy is wonderful. Her knowledge, experience and creativity have had a positive impact on our son, Wyatt. We have watched him blossom before our eyes and know she truly has been instrumental in his growth. We are so happy that Tracy is here to help Wyatt.

We were pleased with Pediatric Vision Screener Juliana and the whole vision screening process. I've had parents thank me for the service as well. We look forward to having her back each year.

Occupational Therapist Jan Dee is amazing and is full of knowledge. She has been a god send to our family and Mason. Mason is doing so well and has made such progress. We are so happy.

My son and I enjoyed every minute with Speech and Language Pathologist Jocelyn in all our sessions. It was sad that it had to end. Elijah is going to school now and is doing really well. I see a whole different person because of his progress. He enjoys himself and he asks to go to school every day. Thank you for this opportunity to help my child. It was hard trying to do it on my own, but God provided me with you all. God bless all of you.
