

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

We love our Occupational Therapist Chrystalyn. She works so well with our son and he is amazing at sensing and adapting to his needs. Her suggestions always take Colton into account.

Taavetai has made tremendous progress due to this program. He enjoys his speech therapy sessions with Jocelyn, his Speech and Language Pathologist, and he looks forward to working with her every week. Jocelyn's therapy far exceeds our expectations. We are very happy with this program and Jocelyn's services.

Speech and Language Pathologist Hedley played a very important role in helping Xachary improve his speech. With her assistance and the therapy that she provided Xachary is now able to speak clearer and is a more confident child because of it. Hedley was very interested in Xachary and encouraged us to follow up consistently with his pediatrician and ENT doctor to ensure that there was not anything structurally going on that was impairing his speech.

Xachary always looked forward to his weekly sessions with Hedley and we always felt like she genuinely cared for our son and his well being. At my request, Hedley also took the time to attend a meeting with Xachary's school administrators and speech pathologist to help us answer their questions regarding his progress to help us get the continued help we need for Xachary. We are so very thankful to Elks for providing us with Hedley and the help that we needed for our son.
