Pediatric Vision Screener Kim is an excellent vision screener. She is very kind and patient with the children. Our children love picking a sticker when they are done. We will schedule for next year for sure.

Speech and Language Pathologist Hedley was a miracle worker with our son Caleb. She genuinely cared and was 100 percent involved, excited and had so many different games to entice our timid little one to interact using words. She was a big reason why we sought a Department of Education evaluation so that our now nearly five year old goes part time to a private pre-school and public special education school so that he gets the benefit of both settings to help him reach his potential. Words cannot express how valuable and productive and caring she has been. Thank you.

Physical Therapist Megan was an awesome therapist. She knew what Joanna needed to work on and help her a lot. She was fun and actually listened to what I had to say. Joanna had so much fun with her.

Occupational Therapist Mindy has been a blessing to Dakota and our family. She has been with us now for 13 years and she will be missed! I can't say enough good things about her.
