

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Pediatric Vision Screener Dina is amazing! She is professional and can get almost every child to participate. Thank you for your program. Each year we find children in need of follow up. I love to see children arriving back to school a month or so later in glasses!

I am so grateful for the California-Hawaii Elks Major Project and their ability to provide excellent care to my special needs child. Physical Therapist Rosana is great! My child benefits from receiving physical therapy services that are improving motor skills and other physical needs. Rosana is very professional and passionate.

Speech and Language Pathologist Hedley is dynamic. She has exceeded all expectations. She has a warm, endearing personality and quickly gained Colton's trust and confidence. He has made significant improvements under her care. He (and us) always look forward to her visits. She has created a personalized program for Colton and we hope she can continue this vital care.

We really love working with Pediatric Vision Screener Elizabeth; she works so well with young children and communicates effectively and respectfully with families. Elizabeth was great as always. Very friendly, great with the children and always gives clear instructions to the children and to the teachers.
