

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

We love the service provided by Mariel, Physical Therapist. We appreciate her care and attention. She said she looks back at notes from the last session to best prepare her for the coming session. I love that! Mariel brings various toys, songs, and knowledge with her each time. It shows her preparation!

We had a great experience with Pediatric Vision Screener Tonya. She is able to calm rowdy children and engage shy kids. Tonya is organized and punctual. We hope to work with her in the future, she is so wonderful.

Speech and Language Pathologist Jocelyn is a very patient and kind educator. Her lessons are fun and interactive. She even gets physically active with my child to get all the wiggles out. My child looks forward to our meetings and shows improvements each time.
