

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

We are very happy with Speech and Language Pathologist Toby. Our son has made progress since he started speech therapy. Toby is very patient with him. She explains what I should practice with my son and how certain words or letters should be pronounced. Therapy has been very successful. Many thanks to Toby!

Lisa, Physical Therapist, is amazing. She worked so hard to keep Miles engaged throughout the sessions. She's super creative, easy-going, flexible, fun, knowledgeable, and she genuinely cares. Lisa has been such a bright light to our family. I can't imagine physical therapy with anyone other than her. I am beyond thankful for what she has done and taught us. She is wonderful!

Speech and Language Pathologist Leigh has been such a positive influence on Tevez's development. She always comes on time and ready to provide unique experiences for my son. She is resourceful and creative and my son thoroughly enjoys his therapy time with her. Since Miss Leigh, Tevez's skills using his Augmentative and Alternative Communication (AAC) device have improved, as well as his babbling. He points and now says "Mama" intentionally and appropriately. Leigh also takes time to teach us and helps us learn how to better assist him in his journey. Thank you for this opportunity. We feel lucky to have Leigh.

Physical Therapist Rosana is wonderful with Noah. He has come a long way in the few short months we have been seeing her. We are so lucky to have her as a part of Noah's growth and development. Thank you to Rosana for her dedication and patience. We are very satisfied with your service.

A coin a day so they can walk, talk, see and play!
