Pediatric Vision Center Didi is excellent! I have worked with Didi for over 7 years, and she is very professional and thorough in her evaluations. Another commending attribute is that she is very patient with the children, taking her time to be sure the evaluation is correct. She has a very kind and thoughtful nature, which is imperative when dealing with young children.

Speech and Language Pathologist Jocelyn is very professional, kind, sweet and nice to Philippos and our family. We are more than glad and appreciative of the California-Hawaii Elks program. Jocelyn is very efficient and well-educated. We see progress with Philippos despite his severe speech delay. She is passionate, dedicated to her work and always goes above and beyond. We are lucky to have her as Philippos speech therapist and lucky for the Elks. Jocelyn is always on time and always educating me on how to help my son communicate.

A coin a day so they can walk, talk, see and play!
