

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Pediatric Vision Screener, Cathy, was great like always! We love having her here. I have no suggestions on how she can improve service. She knows how to make children feel comfortable and safe. I would not ask for anyone else but her.

Michelle, Occupational Therapist, has been absolutely wonderful! Rapport was super easy to earn with Andrew for her. Andrew looks forward to his sessions with Michelle. She keeps the sessions fun and engaging for Andrew. Michelle has truly been heaven sent for our family. We feel deeply blessed to have her expertise.

I appreciate Ms. Jocelyn A., Speech and Language Pathologist, for her help and patience. Speech was not our initial concern, but she also assisted us with addressing behaviors as well.

I've been working with Wyomi a few years in a row now and every year we've become more efficient at the screening process because of her clear instructions. She is also good at getting what she needs from the children. Even if they are having trouble following directions, she stays patient.

Occupational Therapist Lea is incredible with our three-year-old. She always had inventive and exciting new activities to try and help our daughter to walk again!

* * * * *

Hedley is a wonderful and professional Speech and Language Pathologist. She is so engaging with our son. He looks forward to seeing her each week and his speech has greatly improved.
