

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Jocelyn A., Speech and Language Pathologist did great with addressing Charlie's sensory input needs, ways to pronounce certain letters that is a struggle for Charlie, creating sentences, spatial awareness, and encouraging completing tasks independently. It was helpful. She provided exercises for Charlie to do at home. Overall, Charlie has made progress in the short time we have been working with Jocelyn. This is a wonderful, funded program that helps families.

We love working with Occupational Therapist Valerie. We are very grateful for all that she has done for our family and our little one and been there for every single concern of mine and making sure it's addressed and helps me understand and help my child in every way we can. Thanks a lot for everything Ms. Val did for us.

Physical Therapist Lisa has been a consistent and caring provider for Freya. She has always taken my concerns seriously and helped me to navigate the system to get the care we need. Having Lisa come to the house has been convenient and better than going to the clinic. Thank you so much for this program.
